1. Introduction

KKV Foundation Scholarship is a scholarship examination conducted by KKV Foundation e.v. After knowing about the poor situation of several countries, KKV foundation has planned to organize a scholarship program for students who want to study in Germany to complete their higher studies. Motive of KKV is to provide education to all, especially to the needy people who really deserve to get educated.

KKV Foundation, The non-profit organization, serves good education, better health and beautiful nature to the new generation. We know the value of education, health and nature and it is very important for all.

Education is the key to a future success, keeping this in mind we offer free education services to children, as these children will change the entire condition of the community, society and condition of a particular country. There are many children who want to study but they are not able to do so, because their living conditions are not that good, so for all these children we use to provide free education and conduct scholarships so that they can get succeed in their future.

Health, basically a relation between a human and his/her body. Human being is responsible for keeping the body in good health; but we know that, there are people who cannot keep themselves healthy, as most of them are not in a good condition to afford it. We as a NGO cannot ignore these situations so we come up to help such people of different areas; we organize free health check-ups for such people who cannot afford going to doctors. As we all know precaution is better than cure and for such procurements, we give guidance about good health, and help in all necessary ways. Apart from health care camps, Blood donations camps are also set up by our foundation. Team of respective volunteers is working with us who use to take care of all these camps.

Environment makes up our surroundings and affects our ability to live on the earth—the air we breathe the water that covers most of the earth's surface, the plants and animals around us, and much more. As we take care of ourselves it's our duty look after our nature. Without Nature humans are nothing so now it a time to take a responsibility to make surroundings clean. And KKV has taken a step forward as the team has started working on it, planting trees so that pollution can also be in control. Sap & Seeds program is started by the foundation that is particularly based on the concept of planting more trees.

The information in this brochure is mainly categorized into **Pre-Examination** (Eligibility, Application Submission, Examination Centres, etc.), **Examination** (Pattern, Marks/Score, etc.) and **Post-Examination** (Answers, Contests, Results, Scorecard, etc.) sections.

2. KKV Foundation Scholarship (KKVFS)

KKV Foundation Scholarship is basically an examination on the comprehensive understanding of the candidates in various fields. KKVFS will be conducted for bachelors and masters.

“Education is the key to a future success”, keeping this in mind we offer free education services to students, as they will change the entire condition of the community, society and condition of a particular country. There are many students who are willing to study but they are not able to do so, because their living conditions are not that good, so for all these students KKV has come up with a scholarship program for such students who really deserve the free education service. This scholarship program is not only beneficial for the students; it is beneficial for their family as well.

KKV, Foundation gives an opportunity to students of Asia and Africa to study in Germany. We provide scholarship programs for free to the students who want to pursue their bachelor’s and master’s degree. KKV foundation is associated with well known government universities. can approach the Schools and Universities of their respective Countries or can enroll for the exam directly.
